

```
#include<iostream>
using namespace std;

int main()
{
    int num1,num2;

    cout<<"Enter the number 1 : ";
    cin>>num1;

    cout<<"Enter the number 2 : ";
    cin>>num2;

    if ((num1>=num2))
    {
        cout<<"The largest number : "<<num1;
    }
    else if ((num2>=num1))
    {
        cout<<"The largest number : "<<num2;
    }

    return 0 ;
}
```
