```cpp
#include<iostream>
using namespace std;

int main()
{
    int year;

    cout<<"Enter the year : ";
    cin>>year;

    if(year%4==0)
    {
        cout<<"It's a leap year"<<endl;
    }
    else
    {
        cout<<"It's not a leap year"<<endl;
    }

    return 0;

}
```
