```cpp
#include<iostream>
using namespace std;

int main()
{
    int number;

    cout<<"Enter the integer : ";
    cin>>number;

    if ((10<number)&&(number<50))
    {
        cout<<"EXIST";
    }

    else
    {
        cout<<"NOT EXIST";
    }

    return 0 ;
}
```
