```cpp
#include<iostream>
using namespace std;

int main()
{
    float cgpa,attendence;

    cout<<"Enter the CGPA : ";
    cin>>cgpa;

    cout<<"Enter the attendence : ";
    cin>>attendence;

    if ((cgpa>=3.5)&&(attendence>=80))
    {
        cout<<"Congrats! you are eligible for scholarship";
    }

    else
    {
        cout<<"Sorry! you are not eligible for scholarship";
    }

    return 0 ;

}
```
